Certificate

Hereby certifies that the holder of this certificate has a system for statistical checking of prepackages which is judged to fulfill the requirements for \ominus -marking of prepackages according to Directive 76/211/EEC (as amended by Directive 2007/45/EC) implemented into Swedish law by SWEDACs regulation STAFS 2017:1.

System for checking

The approved system for statistical checking is arranged in the following way: Control with checkweigher in the production line and control of sample in batches. The company's system for statistical checking is an integrated part of the company's quality assurance system (which is certified according to ISO 9001).

Marking

Prepackages shall be marked in accordance with STAFS 2017:1 §4 and §13.

Miscellaneous

RISE performs scheduled spot checks at the packer's premises. Conditions for the certification appear in RISE certification rules for prepackages, SPCR 001.

Validity

This certificate is valid until no longer than 2029-03-10. The validity of this certificate can be verified at RISE homepage.
